

Systemic Software Solutions

Gold
Partner

Registered Education Supplier -
Oracle University for APAC and EMEA

Mission

At Systemic, our mission is to deliver effective Management Development Programs to help organizations and individuals achieve excellence in their performance. Having helped to firmly set-up education foundation, we help organizations evaluate, select, plan, implement & maintain the technologies which work as catalyst to their business performance.

We consider speed of value-added execution as the essence to success which helps organizations shrink the time between the investments and their returns without sacrificing on quality or cost advantages for our customers. It is our belief that we can fulfill this mission through a unique combination and innovative vision, domain knowledge, technology expertise and pro-active planning.

We firmly believe that there is always something beyond a 'Total Solution', which keeps us on toes.

In our opinion, progressive process improvement even after achieving business objectives, using innovative technologies, is the key for process sophistication and can help organizations to maintain the leading edge in their areas of expertise.

Analyze | Explore | Innovate | Achieve

With exponential advances in the world of Information Technology coupled with Virtualization and Knowledge building age acting as an operational essentiality for every business, it has become fundamental to address all the issues from Concept to Reality.

Testimonials

You have been awarded because of your valuable input into the implementation of NIPP (Non-Inventory Purchase to Pay) process efficiently and effectively through a variety of unforeseen difficulties. The result was achieved through your experience, willingness to share knowledge and drive to take initiative.

Simon J Scarff - Project Sponsor
Abhinandan Chatterjee - Project Co-Sponsor
Glaxo SmithKline Consumer Healthcare Ltd., Gurgaon, India
 Silver Impact Award as Project Manager to Niranjana Bhatia

In our opinion, Niranjana possesses excellent Project Management & Analytical Skills, in addition to his expertise and knowledge in JD Edwards ERP system. His experience and matured approach towards handling of project can be an asset for any organization.

Jayant Dwivedy - Head Procurement
Glaxo SmithKline Pharmaceuticals Ltd., Mumbai, India

Niranjana has mastered the art of Project Management and Solution Consulting. He has in depth knowledge on many business domains which helps him to identify and understand business pains and suggest solutions which are a right fit. His understanding of the JDE solutions is perfect and he keeps himself updated with the latest. He is completely involved in the project cycle and does not limit himself to solutioning but also follows through with a project in the implementation cycle.

Nitin Paranjape , Director & General Manager Sales - Applications - Commercial Accounts
Oracle India Private Limited

I worked with Niranjana across JD Edwards, Peoplesoft and Oracle. He was a dedicated individual and knowledge across industries and products. He supported me in working on various accounts especially in areas related to India Localisation. He helped me manage various customer accounts through the various acquisitions.

Andy Hiles , Program/Project Director - JAPAC
J.D. Edwards

Systemic training methodology ensured that the knowledge transfer was verified throughout the training with structured quizzes as well as product demonstrations by teams as well as an individual. The training has empowered Cargills team to handle technology issues within organization in a seamless and efficient manner.

We thank Systemic for extra-ordinary efforts for making the initiative successful and would prefer to involve Systemic team for similar product training initiative in future at Cargills.

We would most certainly recommend them to the other clients for the quality of product training that they provide.

Deepani Chandrasekera, Group IT Manager
Cargills (Ceylon) PLC.
